CO-PILOT

Performance metrics setting, alerts, e-commerce business intelligence

Don't just buy software.
Get a partner for long-term
e-commerce success.

“

GTL chose Parcel Perform because of the real-time data that Parcel Perform provides as well as the fast 3PL logistics integration. We saw a 20% increase in team efficiency as more time is spent on operations excellence instead of tracking parcels manually.

Daniel Kalip
Chief of Delivery at GoTo Logistics
